

Transform the Merchant Experience with Exceptional Apps.

Poynt's Developer Ecosystem Reaches Businesses and Customers Across the Globe

Poynt is an end-to-end POS system for today's leading merchants. Its App Center contains a bounty of essential tools created by a community of more than 8,000 developers and sold to merchants to support and extend their capabilities.

Why Do App Developers Choose Poynt?

Adoption at scale

Get access to hundreds of thousands of merchants around the world who crave tools to steer their companies toward greater efficiency and higher profits.

Dedicated sales and marketing support

Develop in this ecosystem and we'll promote your app to merchants who need it, leaving you free to create your next great thing.

A development toolkit

Build transformative applications with development toolkits that offer components, tools, and SDKs.

Robust documentation

Code with confidence using [extensive documentation](#) to answer even the most obscure questions.

APIs galore

Add powerful functionality to your apps in a fraction of the time with payment-focused, customer-facing, and peripheral APIs.

Poynt Is an Elegant and Powerful Force for Business.

Poynt OS

This open operating system can power any smart payment terminal worldwide.

The Smart Terminal and Poynt 5

Whether it's a two-screen tabletop terminal or a sleek mobile device, we have hardware that works for your merchants.

Poynt App Center

Curated, third-party business apps unlock productivity and enhance customer retention.

"Our servers and customers love it."

President of a San Diego Restaurant Chain

"Poynt made inauguration night a breeze."

Jay Porter, IT Manager at the Omni Shoreham Hotel in Washington, D.C.

"Not having all that paper has made my job so much easier."

Cathe, owner of Needle in A Haystack, a retail shop in Alameda, California
